

Project Portfolio 3

Dare to Dream!

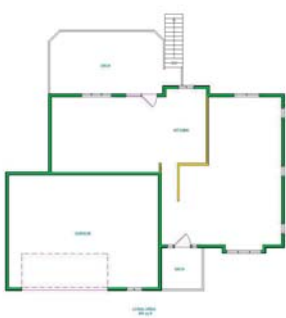

Cramped and dated were the best adjectives for this ¾ master bathroom. A rust-stained shower, oak vanity and toilet filled the small space. But the owners weren't afraid to dream.

In their minds, they saw light and airy spaces. Clean white fixtures and cabinets. A spacious, warm, walk-in shower. Even a clawfoot tub. Where there had been peeling paper, they saw wainscoting. Where there was no natural light, they saw large windows, with green leaves fluttering in the breeze as they sank into the warm depths of their new tub. With the help of Murphy Bros. design and remodeling experts, their dreams are now reality!

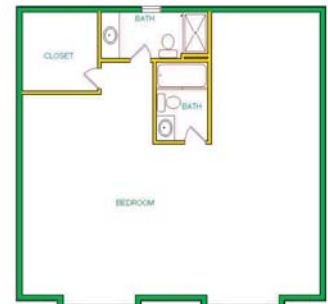

Before:

3/4 master bath is small and dark

Existing first floor

Existing second floor

New first floor

After:

Heated floors, a clawfoot tub, walk-in shower and separate toilet compartment give the master bath a spa-like feel

New second floor
